## 1969 Mayor's Race Steps Up to Four-Way Contest

The mayor's contest in next year's municipal elections mushroomed into a four-way race in Granite City today with announcement by Waldo E. "Ernie" Schellenger that he has abandoned earlier plans to run for township assessor and will file instead as a candidate for mayor.

His entry into the mayor's race followed within a few days an announcement by Von Dee Cruse, an unsuccessful mayoral candidate in 1965, that he also will be a candidate for the office.

Two other announced candidates are incumbent Mayor Donald J. Partney, a third Ward alderman, and Clyde Schellenger, said he was entering the mayor's contest after Er. E. W. Walton, reported a few weeks ago as a potential candidate, decided not to make the race. Schellenger was the first person to obtain mayoralty petition forms from the city clerk's office, but he said at the time he was picking up the forms in Dr. Walton's behalf.

Charges of obstructing a highway will be filed against four members of a train crew of the G&M railroad whose train blocked the Broadway and the Bissell street crossings at the same time Thursday and resulted in a deluge of complaints to police headquarters.

A complaint on which the warrants will be based was signed by William Meehan, chief of the Venice fire department, one of the hundreds of motorists delayed by the train for 20 minutes at the Broadway crossing and for a longer period of time at the Bissell street crossing.

Venice authorities said they received about 20 complaints by telephone after the crossing, delay stretched from the legal maximum of 10 minutes into 20 minutes. Police reported the crossing was first blocked at 12:17 p.m.

## Local Schnauzer Wins Top Honors in Mexico

A frisky little 'salt and pepper' colored dog, with a squared-off beard and finely proportioned features, recently made national headlines in the dog world when he was named "Best of Breed" in four separate competing tournaments in Mexico City.

Dorlea's Midnite Victory, the first American miniature Schnauzer to receive a "Certificate of Aptitude Au Championnat Internationale De Beate," is owned by Mr. and Mrs. Lewis Brown, 75 University drive, Mitchell.

The three-year-old animal was awarded championship honors in the Mexico City International Shows, held Nov. 30, Dec. 1, Dec. 7 and Dec. 8, sponsored by the Federation Cynologique Internationale, an organization which includes 36 nations from the Far East, Middle East, Europe and western hemisphere.

The local couple returned last week from Mexico, where they exhibited three Schnauzers, all now classified in the championship category. The animals previously have earned championship points in several U. S. shows.

Mrs. Brown explained the rules of the International Federation were waived this year due to Olympic activities in Mexico, thereby permitting American dog owners to enter animals in four consecutive contests.

Through the regulation waiver, the dogs could achieve C.A.C.I.B. honors which previously were limited to animals winning "Best of Show" events in two hemispheres, plus the country of birth and country of origin, all within a one year period, she added.

Securing points under the federation's former rules virtually eliminated American dogs from C.A.C.I.B. competition and the restrictions were considered too prohibitive by the American Kennel Club which failed to sanction earlier federation tournaments. Three judges representing the western hemisphere and one European judge presided at the shows, the dog owner said.

Achievement increases the value of the animal to an estimated \$3000 or more, Mrs. Brown explained. The new international champion's grandfather, Helarys Dark Victory, is an American Brazilian champion, and other championship blood appears in his lineage.

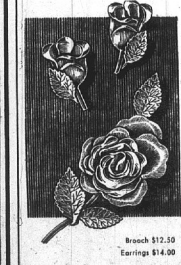

Two other Schnauzers owned by the Browns which won international honors in Mexico City were Vonlew's Exclusive—call name "Tanny"—an 18-month-old female miniature, named "Best of Opposite Sex," and a standard Schnauzer female, 15 months, who captured "Best of Opposite Sex" in the larger size contest and four C.A.C.I.B. points.

Mrs. Brown said that championship qualities evident in the latter animal caused the judges to award the C.A.C.I.B. points although these are usually restricted to dogs two years and older.

The Browns were entertained at several social events in Mexico City and toured various places of interest, including Taco, Tutia and the Mexican pyramid area, before returning home late last week.

## New Gun, Ammunition Law Effective Today

Sales of guns and ammunition will be controlled under the new federal gun law which takes effect today.

Joy G. Philpott, district director of Internal Revenue, said IRS is preparing material to help gun dealers, gun buyers and collectors comply with the new Gun Control Act of 1968 enacted by Congress in October. Philpott said the new law should not place unreasonable restrictions on purchase or ownership of ordinary guns used for hunting, target shooting or other lawful purposes.

Persons under 21 will be prohibited from purchasing pistols, revolvers and ammunition for such weapons. Those under 18 will not be permitted to purchase any firearms or ammunition.

Sales will generally not be permitted to out-of-state residents, Philpott said, although a person from an adjoining state can buy a rifle or shotgun by complying with certain provisions of the new law. Sales to residents of a state will be banned if possession of the firearm is not allowed by local ordinance.

Summaries of pertinent local laws are being compiled in a booklet to be mailed by IRS to federally licensed gun dealers. The booklet, Publication 683, "Published Ordinances - Firearms," should be in the hands of states to qualify for highway construction funds. Failure to comply would result in loss of 10% of the federal funds.

## Drivers Set for New Exams to Be Notified

Illinois drivers who will be required to take the drivers' license examination as the re-examination program goes into effect Jan. 1, will be notified of that fact when their renewal notices are sent to them, Secretary of State Paul Powell said today.

Only one-ninth of the licensed drivers will be called for re-examination each year as the new requirement of the law that all drivers be reexamined once every nine years, Powell said.

Those who receive renewal notices without any instructions to take the examination may simply submit their applications as they have done in the past, and their licenses will be renewed, he said.

Sometime within the next nine years, however, every licensed driver will receive instructions to report for an examination, Powell pointed out.

The first drivers to be called for examination will be those with records of previous revocations or suspensions of their licenses and convictions of traffic law violations, Powell said. Since those drivers are in the minority, he estimated they would all be examined in three or four years.

The examination will include the vision test, road sign recognition test, written test on traffic laws and, in some cases, the driving test, Secretary Powell said.

The decision to require the driving test will be based on the driver's record, plus other factors which may come to the examiner's attention in the course of giving the other tests.

The new program will increase the driver examining workload by about 750,000 a year, or roughly 3000 a day, Powell said.

Periodic examinations of drivers has long been advocated by traffic safety experts, and is now a part of the federal government's requirements for states to qualify for highway construction funds. Failure to comply would result in loss of 10% of the federal funds.

## \$50,000 Suit Filed in Forklift Accident

A suit for \$50,000 was filed last week in Madison county circuit court at Edwardsville for Clarence Gibson against the Hugh Major Truck Service Co.

balance was on the scene on a standby basis. The flames broke quickly through the roof of the building and structure and swept away the entire, unoccupied second floor. Firemen placed the city's 90-foot ladder truck on the parking lot south of the building to fight the roof flames which were shooting in bursts that threatened buildings along the south side of the 1300 block of 19th street.

#### Surround Building

Other firefighters worked at the rear of the burning building, while another crew was on the roof of the Bolenmakers office building that also houses the office of architect Virgil Dulger. The second floor and Lindblad and Hawkins, optometrists, on the ground floor.

#### 500 Feet of Hoses

Firemen used 7100 feet of 2½-inch hose and 400 feet of 1½-inch hose to battle the blaze, utilizing four hydrants along 19th street and 18th street at Delmar and Edison avenues.

The blaze attracted several hundred spectators who huddled together in the stiff wind as the temperatures dropped. However, the weather, while cold, did not turn to freezing temperatures.

Restaurant owners appeared on the scene with hundreds of cups of coffee for the firemen. Donald Vaughn, proprietor of the pharmacy, has relocated all of his prescriptions at the Midtown Pharmacy on Johnson Road. He and Paul Schuler are partners and operate both stores. Vaughn plans to reopen the downtown store at a vacant store at 1838 Delmar avenue.

Firemen were called back three times to douse the smoldering debris, as the fire flared again at 5:30 a.m. inside the tavern portions, at 8:15 a.m. when smoked was seen among the second floor debris and again at 1:30 p.m.

#### Razing Started Friday

The area was barricaded immediately after the blaze because of the danger of falling brick. Strong winds again on Friday resulted in an immediate start of razing operations.

The two-story building that was redomed several years ago, is owned by First Granite City Savings & Loan Association.

In the early 1920s, it was the home of the Granite City Press-Record, now at 1815 Delmar avenue, and in the 1930s it was used as a warehouse by the old Dressel-Young Dairy.

In the late 1940s and early 1950s, the building was taken over by Amvets Post 51, now at Long Lake, and it was remodelled extensively inside. There were apartments upstairs.

Upon receiving a report at 3:30 a.m. that there may be some looters entering the burned-out tavern, police found a man ducked behind his auto. He had placed five bottles of whisky under the car, and his trouser legs were soaked.

Charged with disorderly conduct was Frank Stevens, 32, of 2207 Iowa street. He pleaded guilty and was fined \$40 plus costs by Magistrate William Johnson.

#### Fire Bomb Thrown At Dow Official's Home

B. W. Stinson of Edwardsville, industrial relations director of Dow Chemical Co. at Madison, reported to Edwardsville police at 9:30 p.m. Thursday that a fire bomb was thrown at his home.

Stinson reported that he and his daughter saw a flash of fire pass a kitchen window and that when he went outside the top of his car was burning. Dry leaves around the car and at the base of the garage also were afire.

Stinson said he believed the object was thrown toward the roof of the two-story house, but that the bottle struck a tree limb, shattered and spilled a burning liquid onto the car and the ground. There was no damage to the car or the house, he said.

Police said they were unable to find any footprints but found the pieces of a broken bottle which obviously had contained a flammable liquid.

#### Parked Car Hit

An auto owned by Mrs. Janet Walker of Apt. 1, 3004 Gaslight Walk, parked at the rear of a Namecki Village laundry at 7:45 p.m. Saturday, was struck on the right front end by another vehicle which left the scene, the motorist told police.

#### MORE ABOUT Agreement

Ray Hawkins, business representative of the union, would not discuss detailed terms of the contract offer, noting only that the agreement "resolved all differences to our satisfaction and the men have returned to work."

The labor dispute at American Steel involved wages as well as contract language pertaining to local issues. The strike at the Dow plant went into its 18th day today.

George Becker, representative of the Granite City USWA, said negotiators "were getting nowhere" in contract talks during the past two weeks and that Friday's meeting broke off without any plans for further discussions.

## Yule Plans at Pontoon Beach

A giant Christmas stocking, overflowing with toys and games, will be presented to a Pontoon Beach family on Christmas Eve, Thomas Staico, village president, reports. The eight-foot-long stocking was donated by Paul Bennett, proprietor of the Pontoon Beach Final service station, 3840 Pontoon road, where the stocking is displayed. It contains such articles as a 24-inch doll, racer cars, walkie-talkie sets and various games and puzzles.

Coupons were distributed to all village families during the weekend, Staico said. Residents are to complete the coupon with their name and address and return it to the service station, the Staico home, 3836 Lake drive, or the home of Village Trustee, Rosewell Bennett Jr., 4285 East Lake drive.

The family to receive the stocking will be selected Dec. 24 from those returning the coupons, Staico reported, with delivery of the prize the same day.

Santa Claus will visit the Pontoon Beach area on his annual tour Monday, Dec. 23. More than 1000 pounds of candy will be distributed to youngsters by St. Nick, who will walk through the streets, visit homes and chat with the children.

Staico, invited parents of youngsters who are bedridden or homebound during the Christmas season to call him at 931-8836 to arrange for Santa to make a special call at the child's home.

Residents of the village are to turn on porch lights, yard lights or outdoor Yuletide decorations the evening of Dec. 23 to guide Santa on his rounds.

## Wrong Name Charge Against Arrested Man

An East St. Louis man arrested by Madison police early Thursday, identifying himself as Thomas Jim William, 22, will be named on an additional charge of giving false information, Madison police said Friday.

The man was identified as William Thomas Sullivan after his mother, Mrs. Mercel Sullivan, appeared at police headquarters Thursday night, said she was looking for her son and inquired if he was being held in jail. Officers told her they were holding no one by that name.

Mrs. Sullivan pointed to a counter on which prisoners' belongings are kept and remarked, "That is his hat and coat."

Officers questioned their prisoner again and learned his identity. He had been arrested after being found in an auto belonging to another man, and was charged with criminal trespass to a motor vehicle.

# Warriors Continue on Warpath, Next Task Is to Tame Tiger Five

Sweeping everything before them, the rampaging Warriors of Granite City high school have raced into first place in the Southwest Conference with a 57-82 win at Belleville West Friday night and a 61-44 conquest at East St. Louis Saturday afternoon after previously scalping the Collinsville Hawks 73-68 here in their league opener Dec. 6.

Also unbeaten in the conference with a 2-0 record, the Edwinstown Tigers will visit the Warriors' domain at 8 p.m. Friday to challenge their supremacy.

Also not yet out of contention for the basketball championship are such schools as Collinsville (2-1) and Belleville West (1-2); the Hawks blasted the Maroons 78-56 Saturday.

The Maroons conceded nothing to the favored Warriors Friday and forced the visitors to play the hosts' more frantic style for the first two periods, which ended in 13-13 and 25-25 deadlocks after GC led most of the way.

**Slowdown Aids Attack**

After the half Granite City calmed down and slowed down, depending on set plays and shots offering a greater chance of success. It was the first time this year that the Warriors had trailed as late as the third quarter, but they achieved a 4-4 lead by the time that period ended.

Coach Don Deterding related that it "was the first time we've faced such a tough man-to-man defense. We had trou-

ble adjusting to the pressure they applied to our guards. We took a lot of off-balance shots and hit only four of 14 in the second period.

"We had only one scoring assist in the first half but improved to six assists in the second half. However, we were outscored 36-32."

GC hit 21 of 53 goal attempts and a sharp 15 of 19 free throws. Unable to hit close shots, Belleville West finished with 20 out of 60 from the field.

Gary Simpson led with 20 points, Dave Melzer netted 19, John VanBuskirk 10 and Rich Hutchings, eight. Melzer got eight rebounds, VanBuskirk

seven and Simpson and Hutchings, six each.

**Trail Flyers at Half**

It was almost a repeat against the Flyers, who trailed 14-9 and 42-31 after the first and third quarters but led GC 23-22 at the half.

Simpson totaled 32 points on 15 from 24 from the field and two of four at the charity stripe. Melzer scored 11, VanBuskirk nine, Roger Beische six, Jeff Boyles two and Steve Harris, one.

As a team, the Warriors hit eight of 11 shots from the field in the third period and six of seven in the final quarter. Game total was 32 of 46 for 54%.

"East St. Louis doesn't foul often," Deterding related.

"They force you to take the outside shot, and then try for the rebound. That's how they held us in the second quarter."

GC hustled more in its pressing defense in the second half and kept hands in the air constantly to distract the Flyers on their shots.

## Rally Tops Mathews Cage Squad 103-95

The Mathews Chevrolet men's cage team served notice that it will be nobody's pushover in the 1000-pound rally game Sunday.

Mathews behind 41-19 with five minutes left in the first half but exploded to cut the champs' lead to 47-43 at halftime.

Mathews took the lead early in the third quarter and held on until the two last minutes of the game.

Bob Patrick, team manager, noted that "we outscored them from the floor but the taller team won at the foul line."

Frank Knight led with 24 points, Elmer Wortham scored 20, John Campbell 18, Carl Worth 15, Neil Padoba 10, George Moore, eight.

The loss brought the local team's record to 1-2.

## Sacred Heart CYO Cagers Win 48-44

The Sacred Heart basketball team edged St. Elizabeth's 48-44 in CYO league action Sunday afternoon in the winners' gym.

Top pointmaker for Sacred Heart, which won its second game in three outings, were Mike LeBlanc with 12 and Rich Schurman with 10.

Taking game honors was Jerry Ronk of St. Elizabeth's with 27 points while Butch Wojtowicz added 10.

## GC Matmen 4th in 8-School Meet

There are no perfect records left on the Granite City high school wrestling team, which placed fourth of eight schools in the Riteonur invitational tournament Friday and Saturday.

The hosts won with 82 points, followed by Riverview 69, Hazelwood 66, Granite City 51, McCluer 34, Pattonville 33, Mehlville 18 and Normandy 14.

The Warriors had three second-place finishers, Bob Miller (103 pounds), who won on pins in 3:46 and 4:42 before losing 7-0 to Steve Trauth of Riteonur, 1968 state champion; Rick Smith (154), who lost to Missions champion Stephen Orr of Riteonur 5-4 after winning 10-0 and on a pin in 3:03; and Tim Wallace, who won 3-2 and 7-6 before losing to Bill Hearst of Riverview 2-0.

Third-place finishers were Al Bridgeman (112) W 1-41, L 6-3 and W 5-5 referee decision, and Bob Pates (180), bye, L 6-0, W 5-2.

Fourth-place finishers were Bruce Miller (95), W 1-45, L 13-0, L 3-2; Mike Christopher (127), W 4-32, L 5-2 and L 4-2; and Tom Niebur (138), W 6-3, L 14-5 and L 5-5 on referee decision.

Others wrestling were Steve Ferguson (120), L 6-2, Fay Buchanan (132), L 5-2; Sam Nghosiosian (145) L 11-0 and Mark Mizerski (heavyweight) L 9-1.

Coach William Schmitt noted that "the Missouri state champs finished fifth in this meet and last year's runnerup team placed third. Riteonur has the most balanced team I've seen; they should really be tough by the end of the season."

Although edged in some close bouts, the Warriors also lost others they had expected to win. Schmitt said there will be intense efforts to correct errors in technique before hosting Northwest of St. Louis here at 7:30 p.m. tomorrow; Northwest is rated as about as strong as Riteonur.

**Prather Jr. High Matmen Win 29-21**

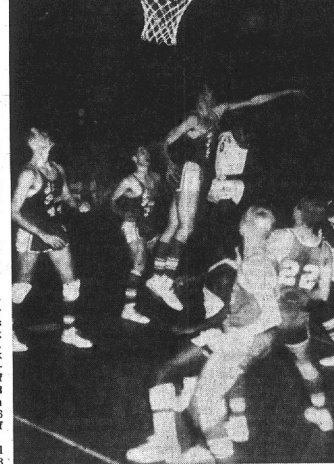

The Prather junior high wrestling team won its first meet of the season Friday by winning 29-21 at Northwest of Missouri. The Prather record is now 1-3.

Winning by pins for Prather were Dave Raab (112) in 3:45, Dan Patterson (138) 1:30 and Dwayne Dickerson (154) 3:05. Dean Vaught (127) won on a forfeit.

Winners on points were Rich Madrid (95) 2-0, Norris Egbert L (135) 4-2 and Bob Morgan (140), 11-5.

Curt Holland (103) bowed 14-0, Dudley Cummings (120) 10-0, Chester Walton (165) in 1:00, Tom Layman (180) in 3:10 and George Billick (heavyweight) in 1:40.

## Red Devil Rally Tops St. Paul Quintet 62-60

The Venice high school basketball team advanced its season mark to 2-2 Friday evening by downing the St. Paul of Highland Bulldogs 62-60 at the final gym.

It was an uphill climb for the Red Devils, who led 14-11 after the first quarter before trailing 29-28 Harris playing SIU-SW and Cedrick Gardner put the Red Devils in front with a short jump shot.

Superior rebounding enabled the hosts to maintain the narrow margin.

Other scorers for the Red Devils were Gardner 17, Harold Genterman three and Howard Johnson, seven.

Two games each night are scheduled for 7 and 9 o'clock in the McKendree gymnasium at Lebanon. The first night will see Harris playing SIU-SW and McKendree meeting Eureka.

The Bearcats' record is 6-0, making McKendree the only undefeated college in the St. Louis area. The last three victories have come over Southeast Missouri State 75-71, Olivet College 114-59 and Harris Teachers College 100-62.

## SIU-SW in 4-Team Meet at McKendree

## Warriors Paired With Prospect at Pontiac

The prestigious 16-team Pontiac holiday basketball tournament, the oldest of prep holiday cage classics, appears to have one of its best balanced fields in history for the 38th renewal Dec. 26, 27, and 28.

Two members of last year's strong field—defending champion Lockport Central, an 81-79 winner over Bloom of Chicago Heights in the championship game, and LaSalle, Peru—qualified for "sweet 16" berths.

Lockport Central's Porters, carrying a 95-point average, are undefeated in four games this season and have gained the pre-tournament favorite's role.

Bloom's Trojans are also carrying considerable pre-tournament backing following four straight victories and a sizzling 92-point per game average.

Other highly regarded entrants include Granite City, a recent winner over highly rated Collinsville; Normal Community, with its 1967-68 starting lineup intact; and Waukegan and Rock Island Alleman.

First-round pairings find the Warriors matched against Prospect at 10 p.m. Thursday, Dec. 26.

If the Warriors win that game they will play at 8:30 p.m. Friday against the winner of the Pontiac vs. LaSalle-Peru game.

If the Warriors lose their opener they will play at 10 a.m. Saturday against the Pontiac-LaSalle loser.

## Cold Trojans Lose 52-46 On Cold Night

As frigid as the weather, the Trojan basketball team got off to a slow scoring start Friday evening and lost a Midwest Conference game to Triad 52-46 at the MHS gym.

Quarter scores saw Madison trailing 12-8, 30-17 and 38-35. The loss brought the Trojan season mark to 2-2 and a conference record of 1-1.

Coach Bob Page said, "We were very cold in the first half, regardless of whether we got inside or tried to hit over the top."

"The ball hit the rim many times, but just didn't go in." Triad pressed the Trojans up front and forced them into numerous turnovers, including steals and traveling violations.

The closest MHS got was 40-38 with five minutes left. The Trojans stole from the Knights several times, but on easy lay-up shots couldn't get the ball in. Earlier, they had failed on rebound tip-in attempts.

Scoring for Madison were Eddie Hilton with 19, Jim Scott 11, Oscar Hagler seven, Alonzo Watts three and Dave Hutchison, Howard Harper and John Harper, two each.

The Trojans hit 30% from the field to Triad's 50% for the game and 65% in the first half. Madison missed 15 free throws.

**27-19 Mat Win By Coolidge Jr. High**

The Coolidge junior high school wrestling team defeated Northwest of Missouri 27-19 Thursday afternoon on the losers' mats. It was the third meet won by the Braves against one loss.

## Introducing two great new economy cars: the 1969 Renault-16 Sedan-Wagon.

You can own the Renault-16 for \$2400! A sedan you could buy for its looks alone. That becomes a rugged station wagon with a flick of the seat. It's already a three year old success in Europe and Canada.

Maybe because of its front wheel drive system, for safety in turning, tracking, plus extra interior space. Maybe because of its eight way seating arrangement, for convenience in

hauling everything from Cub Scouts to furniture. Or maybe because a lot of people couldn't decide between a sedan and a station wagon and decided on both. For the price of one.

## Cage Sops Lose to Collinsville 52-50

GCIS cage sophomores are 3-1 after losing to Collinsville 52-50 here Thursday night. They won the first period 16-8, tied 23-23 at the half and trailed 37-32 after three periods. GCIS regained the lead but with 90 seconds left fouled a Kahok, who put his team ahead again. In the final minute, turnovers and missed scoring chances plagued both teams. Coach Dick Harmon blamed mistakes and 32% field goal shooting; the Warriors were particularly cold in the middle quarters.

## Levee District Starts Work on Tunnel Project

The East Side Levee and Sanitary district resumed work today on two projects for which it has been accused of laziness.

A crew began work this morning cleaning tunnels under the levee levee, a job which the Army Corps of Engineers insists must be done because of a threat to the condition of the levee.

At the same time a man was assigned to operate equipment to pump water from flooded farmsteads east of Harding Water Co. which has agreed to pay a share of the cost of the project up to a total cost of \$100,000.

The levee district estimates the work will cost \$125,000.

The cleaning work, necessary to determine what reinforcement is needed to the concrete tunnel casings, has been delayed for two reasons — high river stage and a lack of funds.

The river stage is now low enough to permit men to get into the tunnels which are to be cleaned of silt for a distance of at least 150 feet through the levee.

In the other instance, Centerville township farmers complained their lands had been flooded by rains twice this year and the levee district had not, in the past, pumped water from the land. The levee district said this was not true and that the area had been pumped last December, in February again in June and one other time.

A man was assigned to the area with two portable pumps to complete the job, a levee district spokesman said.

## ARMY COMMEMORATION on his accomplishment as a Mess Steward at Fort Campbell, Ky., Sgt. 1st Class Pamela Stois (left) is shown receiving the award from an unidentified officer, representing Major Charles W. Tallman.

Sgt. Stois Receives Army Commendation

Sgt. First Class Pamela Stois of 1541 Delmar avenue has received a commendation on his accomplishment as a mess steward, while stationed at Fort Campbell, Ky. His wife Mrs. Irmgard Stois and three children, Barbara, Helen and Peter reside at the Granite address, when they are not traveling with the sergeant. They also have one daughter who is married.

The letter of commendation which was signed by Major Charles W. Tallman, read as follows:

"Prior to your departure to the Republic of Vietnam, I would like to commend you on your accomplishment as Mess Steward of the 28th Field Service Co. during the units Third United States Army Command Maintenance Management Inspection Oct. 28.

"The initiative and attention to detail in preparing your mess equipment for this CMI was exemplified by receiving a perfect score of 100%." It is indeed worthy that this was the first time that any unit has ever made a perfect score on mess equipment."

The sergeant is presently home on leave prior to reporting for duty in Vietnam for the next 12 months, which will be his second tour of duty in south-east Asia.

## MARY SUTT IS BRIDE OF STANLEY SMITH

Miss Mary Ruth Sutt, daughter of Mr. and Mrs. Harvey Sutt, 2022 Harris street, and Stanley C. Smith, son of Mrs. Virgie Smith of Granite City, were married Saturday evening at the Gospel Chapel, 213 Rhodes street at McCasland avenue.

The wedding march was played by Miss Gloria Harper, who also accompanied Miss Bonnie Rhodes as she sang "I Love You Truly."

The double ring ceremony was performed by Rev. Paul Sutt.

The bride's attendants were Miss Thelma Sutt, maid of honor, and Miss Brenda Lister, bridesmaid. A. Alan Campbell was best man and Richard Gosnell groomsmen.

The bride was Debbie Sutt, a niece of the bride, and ring bearer was Dean Sutt, a nephew.

Ushers were Martin Gosnell, a nephew, and Kenny Smith, a brother of the groom.

The bride wore a gown of Chantilly lace tiers with a bouffant skirt of floor length, an Empire neckline and long sleeves pointed at the wrists.

She wore a fingertip veil crowned with white roses and carried a teardrop bouquet of white carnations.

The attendants wore ruby velvet dresses of floor length with long sleeves, "A" line design pink satin insets in the skirts and pink satin bows with flowing streamers. Each wore a pink veil topped with a satin bow.

The flower girl wore a white velvet dress trimmed in red velvet and patterned after the dress of the bridesmaid. She had a red bow in her hair.

Mrs. Sutt, the bride's mother, chose a dress of blue lace over taffeta and black accessories.

Mrs. Smith wore a blue dress with black accessories. Both had white carnation corsages.

After a reception held in the church basement, the couple left for a honeymoon trip in the Missouri Ozarks. They will reside in Madison.

The bride is employed at the Hoy Shoe Co., St. Louis, and the groom is employed at the Bussman Fuse Co., St. Louis.

Tommy Walter of Rhodes street entered St. Elizabeth Hospital Sunday.

Debbie Grimes is in St. Elizabeth Hospital for tests.

## CHRISTMAS BANQUET

## \$225 Fire at Trailer

## Late GC Primary Could Be Called Invalid--Powell

Acting on its own legal advice, Granite City will not conduct mayor primary filing until the regular city filing period begins Dec. 23.

But it may have waited too long. In the view of Illinois Secretary of State Paul Powell, the filing period for the primary election (Feb. 11), Secretary of State Powell said.

Dates governing filings for municipal primary elections are those given in the election calendar compiled by his office, 69 through 99 days (Dec. 4-14) prior to the primary election (Feb. 11), Secretary of State Powell said.

Powell said he was making the announcement because the Index Division, the unit which compiles the election calendar, has been flooded with inquiries from news media, city clerks and attorneys asking for clarification of the law following issuance of a news letter from the Illinois Municipal League saying the filing period was 35 through 45 days (Dec. 18-28) prior to the election.

Don Ed, head of the Index Division, said that the 69 through 99 filing period as carried in the Secretary of State's publication is correct. He said the filing days were advanced during the 1967 session for state, county and municipal elections.

Ed further said that House Bill 389 advanced the filing period for municipal elections. Therefore, the 69 through 99 day filing period as carried in the Secretary of State's publication is law and should apply to the municipal election to be held in 1969.

Senate Bill 1887, signed into law Sept. 6, 1968, merely consolidated three separate enactments passed in the 1967 regular session that amended Section 7-12 of the Illinois Election Code.

If a filing period is used other than that provided by statute, the validity of the municipal election could be questioned, Secretary Powell pointed out.

## Holiday at Home For Marine Going Back to Vietnam

A young Marine home on Christmas leave from Marble Mountain, about eight miles south of DaNang, Vietnam, whose address appeared in the Nov. 21 Yule Mail Call list, said he already had received "lots of cards and letters from people in town I don't even know" before leaving Vietnam eight days ago.

Marine Lance Cpl. Thomas H. Hall, 19, is spending 30 days at home with his parents, Mr. and Mrs. Albert Gaudette, 2204 Orville street. He is to report back to Marine Air Group 16 near DaNang on Jan. 10.

He has served 11 months in Vietnam and recently extended his overseas service time an additional six months.

### Birthday Visit Delayed

The serviceman was hoping to be home in time for his 19th birthday on Dec. 3, but explained that he had "one foot on the plane when bumped off for a priority passenger."

He enlisted in the Marine Corps in March 1967 and reported for duty in June following graduation from Granite City high school. He arrived in Vietnam last Jan. 5.

Cpl. Hall noted that for the past two months there has been much rain in the DaNang area and "it's pretty damp." He said that almost every evening it cools down to 75 or 80 degrees and during daylight hours the average temperature exceeds 90 degrees.

### His Truck a Target

Although stationed in other sectors of Vietnam during his tour, the Marine has been located in the vicinity of DaNang for some time. He frequently drives a truck around the countryside and has "learned to duck fast when shot at."

He commented that the city of DaNang is "off limits" to Marines. However, several USO service clubs in the vicinity teach area outside DaNang provide some relaxation for servicemen.

Cpl. Hall said that by voluntarily extending his overseas time an extra six months, it lessens chances he will have to return to Vietnam for a second tour during the 29 years he has left to serve in the Marine Corps. "Also, I wanted to come home for Christmas," he added.

Meanwhile, he is enjoying the sights and sounds of home, plus the cooler weather, and is looking forward to "just being here" for Christmas and the New Year's holiday.

Cease, John Klee, Louis Kozol, Mark Krizan, George Johannigmeier, Arthur Johannigmeier, F. G. Stephens, Ann North, Rufus Ramsey and Charles Wade. Mrs. Myrtle Hickman attended from the Isabel Bevier unit.

The trio unit will meet at Hope Lutheran Church Jan. 7, Granite City unit at Grace Baptist Church Jan. 8 and Isabel Bevier unit Jan. 23 at a member's home.

## Importance of Downtown District Stressed by Mayor

The importance of a downtown business district to a community was stressed today by Mayor Partney in his monthly report to Granite Cityans.

"A community depends upon the welfare of all. Since there has been so much in the news recently pertaining to our Central Business District, my thoughts were to touch on this subject in this monthly report. An economically sound city such as Granite City demonstrates the typical problems that the Central Business Districts face with the changing needs of the consumers and the growing economic base.

"This administration has been talking with many of the downtown merchants and spent hours surveying through the many surveys that have been made in the downtown business district. It is important that individual merchants should make an effort to improve the physical conditions of their facilities and add new lines of merchandise, as well as to improve their merchandise. Some changes exist in the location and the location of the structures by the merchants themselves.

"In 1966, the Business Research Bureau of Southern Illinois University made a survey on shopper behavior in the Central Business District. A sample of 283 interviews was utilized to determine the likes and dislikes and the behavior of shoppers in the downtown area. Of these 283 interviews, 138 took place during a two-week period in the Christmas season; the remaining 144 took place about one month before and one month after Christmas.

"Our city's Central Business District does not appear to be very attractive as a place to shop around. Only 38% of our city's respondents indicated that they were shopping around. This figure was lower for the Christmas period. As prospective consumers are attracted to the Central Business District to shop around, the sales volume increased proportionately.

"For out-of-town non-Christmas shoppers, the Central Business District seemed more attractive as a place to shop around (45.9%) for Christmas shopping. Out-of-town shoppers come primarily to buy something specific, a fact which, once again, may indicate some weakness on the part of the Central Business District as a total shopping facility, as more than 66% of non-Christmas shoppers from our city had particular stores in mind. Even during the Christmas season they usually come to a particular store rather than to the total shopping facility. This

pattern is more obvious for out-of-town shoppers especially during the non-Christmas period (64.2% of the respondents had particular stores in mind).

### Consumer Loyalty

"By analyzing where the respondents go if they cannot find the merchandise, consumer loyalty to the area can be assessed. While a fairly small proportion indicated their intention to stay in the Central Business District, many non-Christmas shoppers from our city stated that they would go to shopping centers. St. Louis appeared to be strong in terms of its drawing power since more than 30% of the respondents indicated that they intended to go there if they did not find the merchandise they were seeking.

"The Central Business District, according to the survey findings, lost a substantial proportion of Christmas shoppers to shopping centers. For individual merchants can independently do a great deal to solve some of the existing problems. The major goal, of course, is to promote business. Central Business District respondents feel, to achieve this, it will be necessary to improve the appearance of stores and to cooperate and work together, rather than individually. Many of the suggestions relate to better merchandising as well as to the improvement of physical conditions. Our Central Business District needs a lot of improvement. Lack of enthusiasm may be detrimental to the future growth of this district.

"When asked about the future of our downtown business district, our businessmen's answers are consistent in regard to needed improvements in parking and in the appearance of the Central Business District. The future of our Central Business District is dependent upon the opinion of the merchants and their willingness to support programs and their members in groups which will disseminate information and stimulate cooperation to become more active in the civic and economic affairs of the city.

"Local government can and should play a vital role in promoting business by providing more and better parking facilities, cleaning and improving our downtown streets and establishing better traffic flow.

"I feel that the growth and economic well being of our Central Business District is directly related to the over-all welfare and future prosperity of Granite City—which leads to my conviction that there is every reason for the political leaders, businessmen, and the general public to rally to the cause of developing a successful Central Business District.

"Those who patronize the businessmen of their community are helping to pay city taxes, maintain schools, provide police and fire protection and numerous other facilities offered by the community. By helping local business, you are helping yourself to better things in life."

## Youngsters Send 26 Boxes, 300 Letters to Servicemen

An idea of a small group of school children to write Thanksgiving notes to servicemen in Vietnam which mushroomed into a project involving the entire school and several area business firms resulted in 26 boxes of gifts and more than 300 letters and cards now enroute to Vietnam.

The Yuletide boxes, cards and letters were prepared and

mailed by pupils of Sacred Heart parochial school.

The gift parcels contained such items as candies, home-made cookies, Bibles, canned foods, cigarette lighters, toothpaste and toothbrushes, pocket books, shaving cream, gum, mints, tire patching kits to repair rubber boots and ponchos and rosaries for the Catholic servicemen.

Mrs. Jerry Chenevert, 2237 East 24th street, who spearheaded the project, said that most of the items were donated by families of the schoolchildren, while others were purchased and postage paid with contributions made by several area businesses.

**Small Scale Start**  
The project was started on a small scale by members of Sacred Heart's sixth grade Dominic Salvio Club. Mrs. Chenevert's daughter, Renee, 11, is a member of the group.

Club members obtained funds by making and selling popcorn at the school, later branching out to sell the popcorn one Saturday outside a large grocery store and in the general neighborhood of the school.

The Sacred Heart pupils used Yule Mail Call lists published in the Press-Record to obtain the addresses of servicemen.

Besides the 26 gift boxes, more than 300 military personnel whose names have appeared on Yule Mail Call lists were sent Christmas greeting cards and letters written by youngsters from several grade levels.

"The children included their home addresses on the envelopes and are hoping to hear from the servicemen," Mrs. Chenevert said. She noted that one little boy who lives on Cleveland blvd., apparently was in quite a hurry with his letter and managed only to write "Cleveland" as part of his return address.

"We hope the fellows can make out the children's names and addresses and, if they have time, send a note. They are really looking forward to hearing from a soldier overseas," Mrs. Chenevert commented.

## Adequate Financing Key School Problems-Wilkins

For George T. Wilkins of Granite City school problems are not new. He had them as a teacher in a one-room school... as a grade and high school teacher and administrator... as a county superintendent of schools... as Illinois state superintendent of public instruction... and now as a faculty member in education at Southern Illinois University-Southwestern campus.

Between teaching assignments Wilkins finds time to sit on a state-wide School Problems Commission, which studies education throughout Illinois and makes recommendations to the state lawmakers. Wilkins has been on this commission for 20 years, and is now serving his sixth term.

In addition he serves as vice-chairman for a sub-committee

which deals specifically with urban education problems.

As always, the key problem in Illinois is going adequate financial support of quality state-wide programs, comments Wilkins.

## Discusses Key Problems

He talked at length about key concerns of his and the commission in the areas of teacher-education, transportation costs, curriculum and teacher training.

In Wilkins' opinion, the state needs to consider a law governing negotiations with teacher's groups. He favors a policy similar to one enacted in Maryland, where the board is represented by two members and the teacher's group by two to come up with a proposal.

"The way we do it in Illinois with the entire membership of the board involved in negotiations... we'll probably soon run out of people who are willing to serve on boards," Wilkins says.

School boards are designed to make policy decisions, not administrative ones, he added. In transportation, a big item in the state aid budget, Wilkins believes that the state should equalize payments to the districts. He predicts the state will soon be absorbing half of the transportation costs.

## Certain Laws Objectionable

He long has objections to state laws affecting curriculum. "To me, it's not the legislature's job to grant special interest groups the status of a law to insure teaching a day for this and a day for that," Wilkins says. In clarifying his point, Wilkins says that state laws which require all grades to spend one day per year on Arbor Day and Bird Day and the fourth Friday in September as American Indian Day, "I don't oppose such material, but schools are now just ignoring these laws."

The SIU professor believes the Urban Problems Commission has learned a great deal from its series of hearings held throughout the state. He feels the meetings reinforced his concern about updating teacher training programs.

Switching to the school needs of rural population areas, Wilkins offered this suggestion, "Illinois is going to have to come up with a great deal of money to provide for such small districts," he believes.

And for the man who got his start in the one-room school... the times have changed.

## 227 Landfill Checks Made by Inspectors

The Madison county sanitation department made a total of 227 inspections of six landfills in the county during the fiscal year ending Dec. 1, with operations found to be in compliance with the law 133 times, and not in compliance 94 times, according to Paul T. Hawkins, county sanitation official.

Seventy-five visits were made to the Mal landfill owned by Leo Abel and William Miller. It was in compliance on 49 inspections and not in compliance 26 times.

Twenty-four were made at the Chouteau Island landfill which closed last April 4. It was out of compliance half of the time.

The department handled 66 complaints of illegal dumping during the year. Twenty-five cases were prosecuted, 36 were settled out of court and there was insufficient evidence to prosecute in five cases.

Five landfills paid fees of \$300 each for the year, including the Mal landfill. Five other landfills inspected by the department but exempt from fees included the River Bluffs Girl Scout Camp, the Granite City Steel Co. operation.

A total of 250 trucks were inspected, including 114 from Illinois and 145 from Missouri, with total fees of \$2500 paid. The department turned over total fees of \$4080 to the county's general fund.

Mr. Boyd escorted his daughter and gave her in marriage. She wore a floor-length princess style gown of white peau de soie, enhanced with lace and pearls and a fingertip veil of silk illusion was held in place with a peau de soie pill box and bow creation after the bride's own design.

She carried to the altar a white Bible topped with a white orchid and satin streamers and returned with a colonial bouquet of white carnations, camellia foliage and lace.

Miss Sherine Boyd, the bride's sister, was maid of honor, serving with four bridesmaids, Miss Shelly Boyd, Miss Donna Lucy, Miss Suzanne Schalkman and Miss Marsha Casey.

The attendants were dressed alike in gowns of scarlet red velvet with beaded necklines, and velvet sashes marking the Empire bodices. All five girls carried colonial bouquets of red roses, camellia foliage and long white satin ribbons tied with red velvet bows. They were matching velvet pill box headpieces trimmed with pearls, and brief scarlet veils.

Bob Flannigan of New Baden, Ill., was best man and groomsmen and ushers were Jim Taylor, Bernard Picker, Daryl Ridgeway and Tom Phillips.

The bride's mother chose a dress of beige lace over crepe and black accessories, while the bridegroom's mother appeared in white crepe with black accessories. Both had corsages of white carnations.

The wedding reception was held in the Cultural Hall of the church, and the couple left afterward for a honeymoon at Pease Lake Lodge. They will reside in Belleville.

The former Miss Boyd was graduated from Granite City high school and is currently attending evening classes conducted by the American Institute of Banking. She is employed by a St. Louis bank. Mr. Greene, also a graduate of the local high school, attended Florida State University while serving with the U.S. Air Force. He is presently employed at a St. Louis bank and is studying computer programming and automatic data processing in evening classes. Both are avid square dancers and square dance callers.

## Suit Dismissal Railed by State Health Director

Dismissal of the anti-fluoridation suit filed against the Illinois Department of Public Health and the Alton Water Department by the Illinois Supreme Court, which cleared the way for the Department of Public Health to proceed with full-scale implementation of the 1967 Illinois fluoridation law, Dr. Franklin D. Yoder, director, announced Friday.

Dr. Yoder said the suit, which was filed in August, sought to prevent enforcement of the Illinois fluoridation act, which mandates the fluoridation of all public water supplies mandatory after July 1, 1968. The opponents contended that the addition of fluorides to water supplies was hazardous to health and violated constitutional rights of the individual.

The Illinois State Medical Society and the Illinois State Dental Society filed briefs of amicus in support of the Public Health Department's request that the suit be dismissed.

Reason cited was that there has been unanimous agreement that the addition of one part fluoride to a million parts of water is a reasonable and proper exercise of the police power in the interests of public health. Such unanimity has occurred on all occasions where the question of fluoridation has been subjected to judicial review.

Associate Circuit Judge J. H. Streeter of the Third Judicial Circuit, where the suit was filed, noted that the plaintiffs failed to file a reply brief due Nov. 14.

On the basis of the brief filed by the Public Health Department in support of the fluoridation law, and the ruling of the Supreme Court of Illinois in the case of Schuringa et al. vs. City of Chicago, which held the city of Chicago could require the fluoridation of water in the exercise of its police power, Streeter ordered the dismissal of the suit.

In the Schuringa case, the Supreme Court held that fluoridation of public water is not subject to any constitutional objections and did not except religious objections from its broad, conclusive declaration.

## Illinois U. Moms Advise -- Order Survival Kits Now

Orders for Student Survival Kits should be mailed immediately to avoid disappointment to students at the University of Illinois Champaign-Urbana campus, Mrs. Lucille Caban of Granite City, announced today.

More than 2000 advance orders for the kits already have been received by the U. of I. Mothers Association, sponsors of the annual project, and distribution is scheduled for Jan. 9-10.

Mrs. Caban, who serves as Madison county chairman for the Mothers' Association, explained that the kits, costing \$3.25 each, are crammed full of nourishing foods chosen for college students' tastes and appetites.

The project was initiated several years ago to provide a spark of relief from the tensions that arrive with the start of the college examination period. Family items included in the individual packages are humorous as well as appealing to the student's appetite for a

quick snack while studying continues.

Contained in the kits are such items as instant Swiss hot chocolate, graham crackers, instant tea bags, cream cookies, saltine crackers, instant coffee, cheese, beef and chicken bouillon, raisins, candy bars, gum and pickles.

In addition to U. of I. students, the kits are available for mailing to students attending other college campuses, or servicemen stationed within the continental USA for a charge of \$4, the county chairman said.

Kits sent to servicemen in Vietnam or other overseas areas cost \$4.25, she pointed out, adding that kits are heavier than in previous years, however, the association elected to keep mailing costs to overseas servicemen at a nominal \$1 fee.

Survival kits may be ordered from the University of Illinois Mothers Association, 610 East John Street, Champaign, Ill., 61820.

# Rheumatic Fever Avoided By Many Due to Throat Cultures

The Throat Culture Program of the Illinois Heart Association as a means of rheumatic fever prevention in Madison county schools, has been described as a successful venture.

Harold Thomas, coordinator of Special Education for the Granite City school district said, "Before we had the program, we had many children home bound with rheumatic fever, but since we've had the program, we've had very few, perhaps one or two a year."

At the beginning of the school year, permission is obtained from parents for school nurses to take throat cultures of children with signs or symptoms of streptococcal infections. These infections can lead to rheumatic fever and heart disease.

Common symptoms are sore throat, headache, fever, generally from 101 to 104 degrees, abdominal pain and nausea and vomiting. Other signs are red throat, swollen glands and a rash.

Throat cultures are taken by nurses and when a culture is found to be positive, brothers and sisters of the child are also cultured. When a child returns to school without having had the services of a physician after absence because of a sore throat, cultures are also taken. Any child can be cultured upon the request of his or her physician and when 10% of any grade or room is reported positive in any given week, an effort is made to culture the entire group.

**Parents Informed**  
When positive cultures are found, parents are notified and asked to take the child to the family physician. When the child is treated, the physician's report is returned to the school nurse.

The Illinois Heart Association is responsible for obtaining and paying for supplies necessary to make the cultures, recruiting sponsors and volunteers for the program, assistance in training professional and voluntary personnel and conducting an educational program for physicians, nurses, teachers and parents regarding rheumatic fever and the Throat Culture Program as a preventive measure. Many of the PTI members in various schools donate their time to transport the cultures from the school to Grover Norwood advanced biology teacher at the Granite City high school, who has the incubator set up in the biology laboratory. The cultures are streaked onto blood

**THROAT CULTURING**, Mrs. Margaret Roberts, a registered nurse of the Granite City school district, is shown streaking the throat of eight-year old Dana Spalding, a third grade pupil, at Niedringhaus school.

agar plates which remain refrigerated until they are ready for use. After a plate is streaked, it is incubated at 37 degrees for approximately 18 hours by Norwood. He reports positive cases to the school nurses.

## Costs 57 Cents a Child

The program is costly and was originally set up as a pilot but has been continued on a year-to-year basis. Estimated cost to culture a child is 57 cents, and there are more than 15,700 children in Granite City area schools. Other county schools where the program is in effect are located at Madison, Venice, Marine and Troy. Thomas said, "The number of parents who take children to the doctor after they get a positive report is about ninety-nine and one hundredths per cent. This is a marvelous thing as far as the community is concerned."

Local physicians, the medical society and the school district cooperate with the Heart Association in sponsorship of the program.

**INCUBATING THROAT CULTURES**, Grover Norwood, advanced biology teacher at Granite City high school, is shown placing a blood agar plate into an incubator at the school laboratory after it has been streaked with matter taken from the throat of a child. He performs this service for a number of local and county schools on a volunteer basis.

## Plans for Christmas Holidays Made by K. C.

Tri-City Knights of Columbus Council 1068 made plans for the Christmas holidays during a meeting Thursday night conducted by Michael Schuler, grand knight.

The annual Christmas party for children was held on Wednesday at the K. C. hall. Entertainment was provided by costumed dancers from the Mexican Honorary Society and by Dr. Leo Coleman, who presented magic tricks. Santa Claus was on hand, bags of candy, fruit and toys were distributed and refreshments were served.

## Venice-Lincoln Class Visits Madison Bank

Banking procedures from the standpoint of patrons and the institution were described to a group of 20 adult students from the Venice-Lincoln Technical Center, who inspected facilities at the First National Bank in Madison last week.

James Foley, bank auditor, explained various aspects of banking, including check registers made to customers for checking accounts and loans; interest accumulated in a savings account; and the advantages of securing cashier's checks and safety deposit boxes.

The bank officer also described security precautions taken inside the building to guard against holdups, and innovations which provide greater convenience for customers. The group inspected the central banking area and vaults.

The field trip was the first taken by the adult class members who are enrolled in the Venice-Lincoln center's basic education course. Al Delay, class instructor, said he hopes to arrange visits to local industrial plants and St. Louis business firms to acquaint the students with different facets of the business world. Students range in age from 18 to 38 years.

Andre N. Gitcho, Madison First National executive vice-president, greeted the visitors who were served refreshments following the tour.

### How to Settle Labor-Management Disputes Before They Seriously Damage Both Sides and Public?

Editor's note: The Quad-Cities area has been plagued out with more—and costlier—strikes in 1968 than it has for many years. The fact that the community's economy already is in the millions—and no end is in sight.

Three of the four strikes affecting our largest industries are still in progress; payroll loss alone in excess of \$5.5 million. What the companies have lost in canceled contracts, new business, etc., is more difficult to estimate but must be many times more.

The accompanying article describes the Australian program for handling labor-management disputes, and is particularly timely. It was written for the December issue of *The Quill* by W. Sprague Holden, a working newspaperman for many years before teaching journalism at Wayne State University, who traveled more than 20,000 miles in Australia on a Fulbright grant in 1968.

His interest in the general subject of arbitration of industrial disputes led to a second Fulbright grant, supported by Ford Foundation contribution, which enabled him to study the Australian conciliation-arbitration system during a second visit to Australia which lasted most of 1968.

On the day that Detroit's latest daily newspaper dispute was settled, one of the participants told a radio interviewer: "This proves that collective bargaining is not dead in Detroit."

In a different context of events, the statement might have seemed a sage and encouraging judgment. In that context was a newspaper shutdown that was to close its 28th day before the press rolled again.

The settlement ended, in our fifth largest city, the longest major newspaper blackout in American history.

After almost nine months of deadlock between the proprietors of the Detroit Free Press and the Detroit Free Press on one side, and about a dozen newspaper unions on the other, collective bargaining had won a great victory.

Long live collective bargaining!

It is not as if Detroit's dailies were new to shutdown trouble. In 1964, a dispute between the Free Press and the News for 134 days. Beginning on Dec. 1, 1965, Detroit's three dailies—the Detroit Times, the Detroit News and the Detroit Free Press—were down 46 days.

In previous years there had been other, shorter shutdowns. But 287 days! As a tour joke of the moment went, "It took them nine months to make a delivery."

If this kind of catastrophe were peculiar to one city, there would be little point in getting exercised about it outside of Detroit.

But newspaper strikes, shutdowns and lockouts are a national problem that seems to be getting worse. Here are a few facts to chew on.

The Bureau of Labor Statistics recorded 351 newspaper strikes and lockouts between 1946 and 1966, a stoppage being any suspension of work "involving six or more workers and a full day or shift or longer."

Since 1955 more than a score of our biggest American cities have suffered newspaper disputes, with consequent strikes, lockouts and/or other shutdowns, of at least a month.

Many were much longer and some cities have endured recurrent trouble.

The cities are: Detroit, Cleveland, Lima (Ohio), Boston, St. Paul, Peoria, Philadelphia, Grand Rapids, New York, San Jose, St. Louis, Reno, Portland (Oregon), Milwaukee, Minneapolis, Honolulu, Toledo, Columbus (Ohio), Youngstown, Terre Haute, East St. Louis, Baltimore.

Yet, these are only the cities with the worst disputes record. Many others have suffered shorter disruptions.

But when major cities are deprived of their dailies, the effects are far more grievous than are in smaller places.

Besides the usual news blackout, loss of wages, loss of income to the papers and deprivation to advertisers, the nation or region suffers in less obvious ways. Metropolitan dailies, with their greater circulation, larger staffs and more extensive news coverage are read by opinion makers and community leaders far beyond the papers' home circulation areas.

Small papers look to the metropolitan news for ideas, direction, news treatment, exposition and argument on public issues and scores of other important technical matters. The damage is very great when a big paper suspends publications because of industrial trouble.

Some papers, of course, do shut down when a dispute

### Neither Party Sure Of Electing a Senator Unless It Nominates the Best Candidate

At least part of the interest in March 11 and April 29 balloting to fill the Illinois Senate position being vacated by Paul Simon, new Democratic governor, will center on whether Republicans can repeat the strong showing they made in the November general election.

Although there are five Democrats and three Republicans in the running in the 53rd District, which includes the Quad-Cities, Alton area, Edwardsville and Troy, the primary will narrow the race to a head-on confrontation between candidates of the two parties.

Normally, the Democrat would be favored, but Republicans' partial success in this region last month has made it a new ball game.

Which party is best to win the nominations should go a long way toward deciding the outcome.

### Can the Sting Be Removed From Labor-Management Disagreements?

Is there a way to keep labor-management disagreements from becoming so damaging to everyone concerned and to the many "innocent bystanders"?

We don't know, but we hope so. Undoubtedly most Quad-Cityans hope so, too, after the bruising year they have experienced. Several long disputes here are still unresolved.

A plan tried in Australia might work equally well in the United States. We recommend that readers study the Australian method appearing on this page today.

### Fire Brings Recollections Of Our Cub Reporter Days

The disastrous fire that badly gutted a two-story building at 1830 Delmar avenue last Thursday night brought back fond memories to this writer. It was there, a little over 41 years ago, in September of 1927 to be precise, that he launched his newspaper career as a \$5-a-week cub reporter for the Press-Record.

In comparable American situations, the fire and trouble have been settled in three weeks. Possibly not in three months.

The commission has immediate news blackout probable and no agency empowered to move in and establish a just accord.

Each commissioner is assigned a number of areas in which he has supervision. The 12 commissioners cover all industrial disputes.

Industrial disputes divide into three general categories: (1) Over points and agreements; (2) Over points not specifically covered, usually the result of unforeseen new conditions; (3) Over provisions in pasts in process of construction, especially those involving new conditions.

When trouble breaks, a conciliator or the commissioner assigned to that area moves in. If the dispute does not yield to conciliation or mediation, it may be arbitrated by the commissioner.

From it has grown a system of two major units: Federal, covering interstate businesses and industries; State, covering intrastate businesses and industries. This federal jurisdiction is divided into two halves: the total Australian work force; the six state jurisdictions nearly all the other.

The rudiments of Australian conciliation-arbitration are easily explained.

### Opportunity to Talk With Men in Vietnam War Zone This Christmas

We have been urging Quad-Cityans to send Christmas greetings to local servicemen in the war zone. Now, about all that remains of those days are the lasting values of the profession.

We do not miss the other things, but we do have fond memories of the Christmas of the Quad-Cities area, in the 56 years we have lived here in it, has improved.

In addition, it is worthy of note that the telephone company has arranged to handle large volumes of telephone communications between the U. S. and Vietnam, and effective this month, has reduced the rate for the first three minutes from \$12 to \$9 by making station-to-station calls possible.

Phone calls rank close to mail in their ability to boost the morale of America's fighting men. During the holiday season, they could not help but have even greater impact.

### Adjectives On Size of National Election Victories Mainly Guesses and Often Wrong

When the late John F. Kennedy took a big lead in Connecticut early on election night in 1960, some commentators began crediting him with a huge national victory, rather than the paper-thin presidential triumph (118,550 votes) that Kennedy had won by an extremely narrow margin—again was subject to challenge, although true in certain respects.

A more cautious approach was used on networks this year, but the conclusion—that Richard Nixon had won by an extremely narrow margin—again was subject to challenge, although true in certain respects.

Complete official tabulations made available late last week disclose that Mr. Nixon not only won easily in electoral votes, 302 to 191 for Mr. Humphrey and 45 for Mr. Wallace, but also came within 296 votes of attaining a half-million margin in popular voting.

Presumably the third candidate limited the winning popular vote level to 43.40% (compared to 42.72% and 13.33%, plus 0.35% for eight minor parties and scattered non-candidates). The 499,704-vote edge is kept in perspective by noting it to the overall turnout of 73,177,821, a new record.

A "landslide" effect can only be obtained by contrasting the vast geographic area in which the GOP standard-bearer prevailed with the "mini-sized" territories won by the other two principal contenders. But "people, not trees" must be represented, the courts have ruled.

It wasn't a landslide, of course; it was a fairly close election. But no one could really be sure until days or even weeks had passed.

It simply isn't possible under present ground rules to predict the outcome of an election. Maybe someday somebody is going to admit that candidly, particularly when going beyond the identity of apparent winners to guess the size of their victory margins.

It is an American industrial court system. "Why," asks Judge Rosenberg, "should justice in a labor dispute depend upon who is stronger in a strike?"

Why, indeed? We are an industrial society. The tightly-woven fabric of its uncountable components has given the nation a huge and vital stake in its peaceful operation than ever before.

Our technological wizardry has altered our manner of living almost beyond belief in the last few decades. Meanwhile, our national productivity has become more effective means of solving disputes in industry fairly, quickly and wisely.

Yet the solution is there, waiting. We need an extension of the principles of justice under law to labor-management relations.

The cure is not for newspapers per se; it is, rather, a cure for any industry where the head-on clash of employer-employee differences threatens the peaceful stability of a community.

Australia's formula for new venture of a disinterested third party and the application of his wisdom and mature judgment to the issues in contention.

The most unwelcome rogue can take his piddling case to a court of law. In the blindness of our folly, we bar from the halls of justice disputants whose only interest is having the best of it.

Justice and equity are basic to any court of law in western civilization. They would be that in an American industrial court system.

Under the principles of law, a better way has been found for just settlement of man-made disagreements than the intense, bitter, and often irreconcilable party and the application of his wisdom and mature judgment to the issues in contention.

It is past time that we consider them.

### Income Tax Might Offset Personal Property Tax, Part of Sales Tax

(Taxpayers' Federation of Illinois)

Some proponents of a state income tax feel that if an income tax is passed by the Illinois General Assembly, the sales tax and use tax rates should be reduced by one cent a year.

The retailers' occupation tax and use tax rates at the state level are presently 4½ cents of the total property taxes consisting of personal property taxation is higher than 20% due to the amount of industrial equipment on the personal tax rolls.

Statewide, the personal property tax is \$389 million. Not all of the personal property taxes are collected, but it is fairly safe to say on a statewide basis that about 90% of the extension is collected.

It is estimated that during the present 75th Biennium, sales and use taxes will produce \$2,000,000,000 for the biennial period, or \$1,000,000,000 a year.

A 3% flat income tax would produce approximately \$1.75 billion a year, estimated for 1968.

It is estimated that during the present 75th Biennium, sales and use taxes will produce \$2,000,000,000 for the biennial period, or \$1,000,000,000 a year.

In addition to projecting an income tax partly in lieu of the sales tax, it also is possible to consider adopting it partly in lieu of the sales tax and personal property tax.

If the sales and use tax and personal property tax were reduced by one cent and if taxpayers were given a credit for the personal property tax they pay, what would be left?

There are good teachers and there are mediocre teachers. It is fortunate in having the so many smart, dedicated, inspiring teachers in its school system.

It seems reasonable that the most outstanding teachers should reap the greatest rewards.

That an instructor who does a mediocre job because of lack of ability or interest should get the same amount of money as a stimulating teacher who happens to have the same experience and education.

There are good news that the citizens' committee which studied the Littleton school district's 1968 budget has urged the district to begin a study leading to the adoption of a merit pay plan.

"We firmly believe that an in-

dividual's salary should be commensurate with his quality of performance as measured by the merit pay plan.

"Realistically, we are aware that merit pay works better in theory than in practice. However, if the theory is good, and we believe it is, we are confident that an efficient merit pay plan can be formulated."

Many teachers admit privately, by the way, that they are not as good as they would like to be, but when teachers speak as a group, the usual response has been, "I'll never work. Why ever consider it?"

Littleton's teachers have demonstrated in recent negotiations that they are responsive to the community's needs. They surely will be represented on the district study committee which will help Littleton come up with "the impossible"—a workable merit pay plan.

## Miss Deborah Gorby Is Bride of Franklin Beam

Miss Deborah Jo Gorby and Franklin Joseph Beam exchanged wedding vows in a double ceremony held Saturday evening in a holiday setting at Concordia Lutheran Church.

The bride is a daughter of Mr. and Mrs. Ray Gorby, 2708 National avenue. Mr. Beam's parents are Mr. and Mrs. Frank Beam of Brunswick, O.

Candelabra and vases of white carnations tipped in blue with deep red roses and greenery decorated the altar for the 7:30 ceremony, at which Rev. Arvin Timmeyer officiated.

The wedding prelude was presented by Miss Alta Bollinger. As the bride was escorted down the white-carpeted aisle by her father, Miss Bollinger played "Let Us Ever Walk With Jesus."

The bride chose a gown of pure white Chantilly lace fashioned with a sabrina neckline

sprinkled with sequins. Long tapered sleeves were set in a molded bodice. Tiers of wide lace and organza were alternated around, and the skirt was worn over a large hoop. The back of the dress repeated the alternate layers and cascaded into a long cathedral train.

A circular shoulder-length veil of pure illusion was secured with a white velvet bow.

The bride carried a cascade bouquet of white carnations and deep red roses entwined with moss green velvet ribbon and green lace.

Miss Susan Rice served as maid of honor. She and the bridesmaids, Miss Debra Johnson, Miss Cathy Knackstedt and Miss Carol Haggauer, were dressed alike in royal blue velvet with high Nehru necklines and long tapered sleeves.

Matching covered buttons were on the front of each bodice. A self-trimmed bow with fullness fell to the hemline of each long "A" line skirt.

Headpieces of midnight blue velvet bows completed their attire.

The attendants carried cascade bouquets of white and blue variegated Elegance carnations, with spring greenery and midnight blue velvet ribbon.

The bridegroom had Edward Wilsey as best man. Groomsman and ushers were David Geierling, Paul Gorby, brother of the bride, and Carl Mc-

BRIDE-TO-BE, Miss Brenda Sue Bennett, whose parents, Mr. and Mrs. Cecil L. Bennett, 4010 Braden avenue, are announcing her engagement to Floyd Earl (Butch) Ridgeway, a son of Mr. and Mrs. Floyd E. Ridgeway, 4110 Bruene avenue.

Dowell and Raymond Schultz, brother-in-law of the bride.

H. A. Amelung sang the Lord's Prayer as the couple, Mr. Amelung also presented "Wedding Psalms."

The groom's mother was attired in a holiday off-gold dress with matching accessories. Her flowers were green cymbidium orchids with gold.

The bride's mother chose a deep gold crepe dress with contrasting brown accessories. She wore a green cymbidium orchid with gold to complement her dress.

A reception was held directly after the ceremony in the parish hall. Decorations of blue flowers centered the tables.

Misses Deborah Corcoran, Judy Britton and Joan Britton presided at the refreshment table. Favors were presented by Miss Laura Corcoran.

Mrs. Sally Schultz, the bride's sister, presided over the guest book. Mrs. Mary Ann Gorb, sister-in-law of the bride, attended the gift table. The order of service programs were distributed by the bride's nephew, Drew Schultz.

A reception was held at the home of the bride's parents for a large number of out-of-town guests, including the groom's parents and their children, Susan and James, Mrs. Ray Miller of Terre Haute, Ind., an aunt of the bride, Ev Gorb of Terre Haute, the bride's uncle, and Mr. and Mrs. Glenn Gorb of Gary, Ind., an uncle and aunt of the bride.

After their honeymoon trip, the newlyweds will go to Park-

**Fantastic value! New  
deluxe FM/AM clock radio**

Wakes you to music, news or alarm. Then '40 wink' switch lets you snooze 10 extra minutes before 2nd alarm. Beautiful tone. Turns itself off automatically after you go to sleep at night.
